

# Visualisation, Display and Signalling

## What user name/password I need to enter in the ControlTouch app on my smart device?

If you register a new ControlTouch to your my.ABB-Livingspace account you will be asked for the serial number and the “app” user and password. You can enter free a user/password. That can be different from your my.ABB-Livingspace account.

The app user/password you need to add in the ControlTouch app and that’s the same user/password you need if you want get access to the local configuration webpage of the ControlTouch.

Unique solution ID: #1146
