

Commissioning and Configuration

How do I create a backup within free@home?

To create a backup in [free@home](#) please be sure you are logged in in configuration mode.

1. Go to the main menu and click on preferences on the bottom right of the screen
2. Select project backups and create new project backup
3. Give it a name and save it
4. The backup is then available in the backup overview
5. Select the backup and click in export to save the backup in your computer

The following video shows how to create a backup:
