

Commissioning and Configuration

How to change the function of a switch in free@home?

[free@home](#) allows you to control lights or shutters individually or in groups.

Individually means a single switch is connected to a light or a shutter.

In groups mens several lights or shutters are connectd to a single switch. Example: all lighting in the kitchen are conncted to one switch.

The following video will shows you:

- Where you can edit settings for lighting or shutters
- How to disconnect lights or shutters
- How to connect one light or shutter to one switch
- How to connect one light or shutter to several switches
