

Commissioning and Configuration

How to import a backup in free@home?

There are two ways to upload an existing backup:

- Go to the main menu and click on preferences on the bottom right of the screen
- If you already created a backup before, it will appear on the backup overview
- Select the backup and press restore project backup
- Press save to confirm

- Go to the main menu and click on preferences on the bottom right of the screen
- And select import backup
- Search for the backup file and confirm the import
- Press save to confirm

The following video shows how to create and restore a backup:
