Commissioning and Configuration

How can I duplicate projects in free@home?

Transferring or copying the programming of an existing project to a new project can be really relevant e.g. for commissioning 100 apartments in a high rise building.

Belows document explains with clear and simple step-by-step instructions how to duplicate free@home projects.

[Duplicating projects in free@home](#)

Advantage: to duplicate the project, it only takes a few minutes (depending on project size).
