# Heating, Ventilation and Air Conditioning

AC/S 1.x.1: Why have the changes made in the DCA not been saved in the device after a new download?

Any Changes within the DCA must be stored before downloading again, as the ETS does not comply with any changes.
So, please press the following button to store the changes before a new download starts.

A note also appears:

Project data has changed. Please save the project before device programming (download).
